BIO

Lew Apollo is a rising star in soul music, known for his soul-stirring melodies, poignant lyrics, and dynamic live shows with his 5-piece band. His debut EP JUNGLE, produced by BLK ODYSSEY, has amassed over 150,000 streams in just two months and led to sold-out shows at top Austin venues such as Antone's Nightclub. Lew's sound blends the cinematic songwriting of Hozier, the powerful energy of Arctic Monkeys, and the sultry, soulful voice of Leon Bridges. Following the profound impact of his father's loss in Fall 2022, his music explores themes of isolation and anxiety with deep empathy. His highly anticipated debut full-length album is set for release in April 2025.
